

Automation Department

Anton Danilenko

Lead JS Developer

Node.js, Angular, PHP, HTML, CSS, JavaScript, JQuery

Inna Levandovskaya

JS Developer

CSS, JavaScript, JQuery, React.js, Node.js, Wordpress

Timofiy Kapliuk

Backend Developer

PHP, Zend, JavaScript, Angular, Magento

Our projects

Let me show our expertise in Alexa and Google Assistant skills development:

nēdl

Skill for custom radio service, to find streams and manage them by the voice. See on [Amazon](#).

Pentair ScreenLogic

Amazon Alexa and the ScreenLogic interface for Pentair's IntelliTouch and EasyTouch pool/spa control systems work together to help you set the perfect pool or spa temperature without having to lift a finger. See on [Amazon](#).

AbleFreight

Skill for delivery company around the world.

Pentair IntelliCenter

This skill is for use with IntelliCenter pool/spa control systems. It allows easy access to your most common pool/spa control actions. See on [Amazon](#) and [Google Assistant](#).

iBiquity

Skill for a custom radio devices built in the cars. Stack: Amazon Echo, Amazon IoT, AWS S3, Node.js.

The skill marketing materials:

- [First DTS Play-Fi Speakers with Amazon Alexa Voice Service](#)
- [Alexa voice service enabled play-fi speakers](#)

The skill marketing materials:

- [ScreenLogic2 interface for IntelliTouch and EasyTouch automation system](#)
- [Pentair ScreenLogic interface for Amazon Echo](#)
